

Pump Jack

Anti-Seize, Sealants and Thread Compounds

PUMP JACK

Grease & Lubrication Guide

More Profit and Less Waste with Jet-Lube Products for Your Oilfield Pump Jack Operations.

Manufactured by Jet-Lube USA for use on pump jack units operating worldwide.

All Jet-Lube greases and lubricants are formulated with special extreme pressure additives to ensure their anti-wear protection and provide a unique chemistry for efficient operations across extreme weather environments.

Jet-Lube 'ECF' products are VOC (Volatile Organic Compounds) and BTEX free.

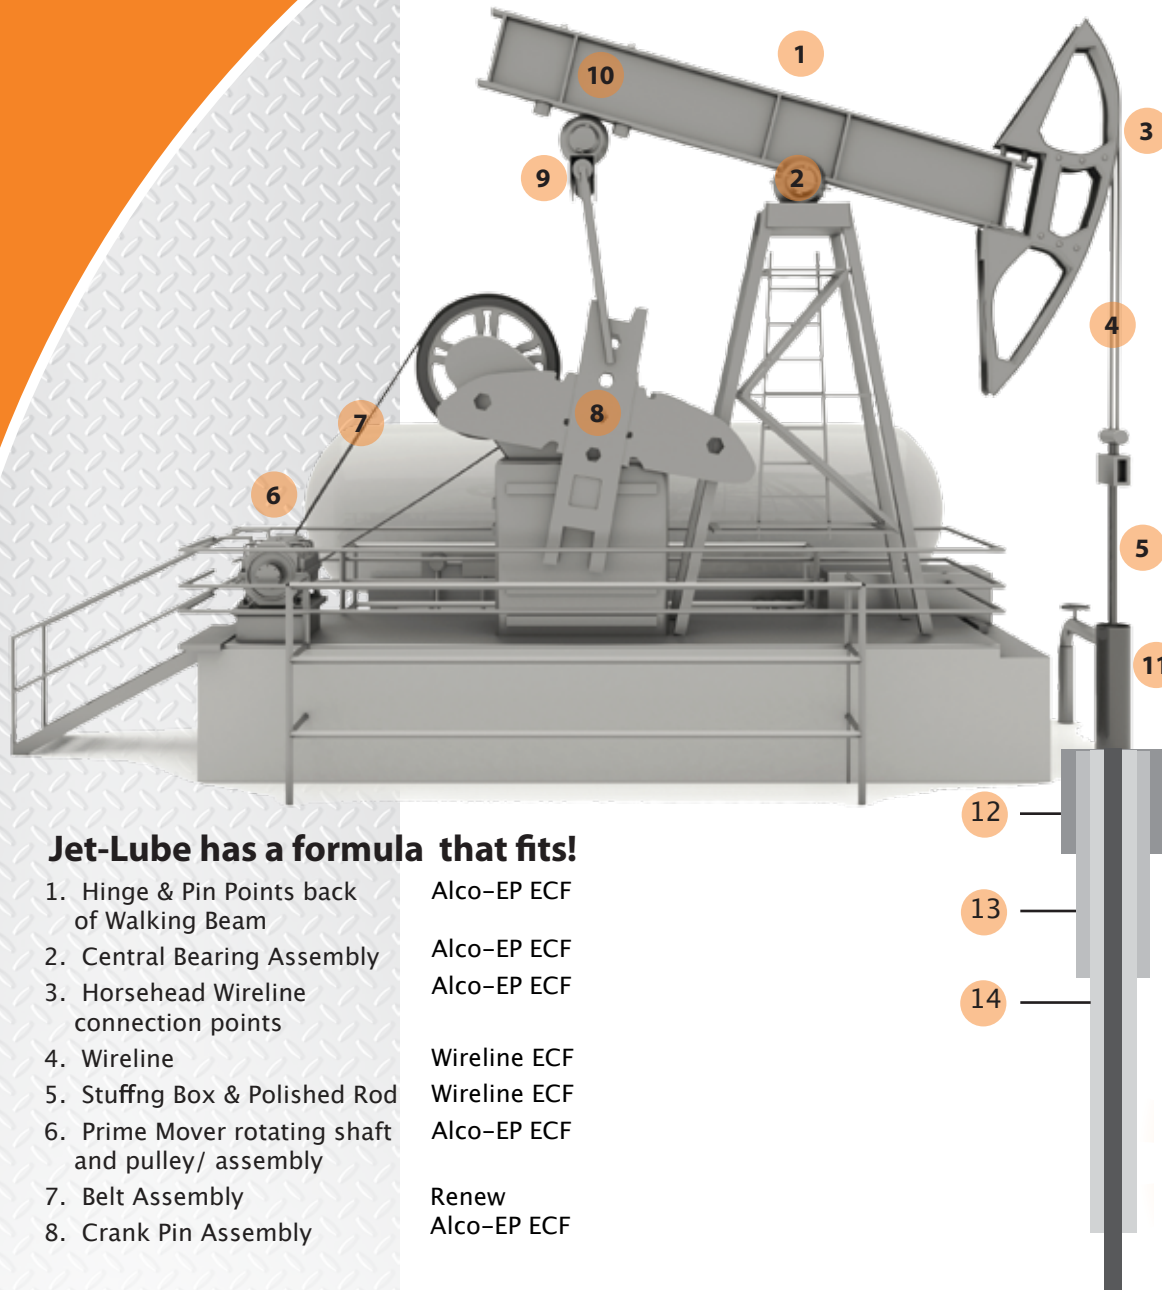

In 2014 Jet-Lube will celebrate 65 years of leadership and innovation to the Oil & Gas, Pipeline, Refining and Petrochemical markets.

Around the globe, Jet-Lube are world leaders in Anti-Seize Compounds, Thread Sealants and Lubricants.
